Holland

Dear Ton:

This is to thank-you, somewhat formally, for the very strong creative work that you did in connection with the Apple Europe Cannes management meeting.

The design for the invitation/thematic piece for Cannes was particularly well received. You should know that overall, the reaction to the visual materials for Cannes has been incredibly positive. From a creative point of view, thanks to the excellent designs proposed by the Studio, the meeting in Cannes was a tremendous success.

I very much appreciate your hard work, your devotion, and the wonderful work that you proposed for the conference.

Sincerely,

Bradford G. Gorman
