

### TO WHOM IT MAY CONCERN

At Willem de Kooning Academy, we create the setting in which students can develop and broaden their interests. They can choose different ways of working, the type of assignment that suits them best and even the style of learning and how to develop their talent.

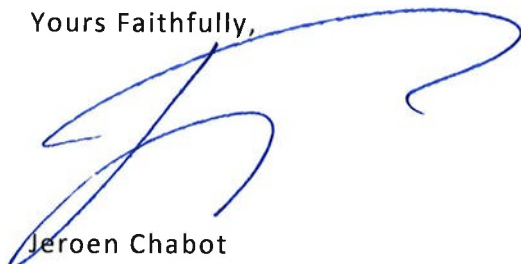

Mr. Ton van Bragt worked for Willem de Kooning Academy, Rotterdam University of Applied Sciences, from 1991-1994.

During those years he worked as a part time Typography teacher in our department of Graphic Design.

We remember him as a dedicated teacher and a well respected colleague. In his work he was able to merge the artistic values with corporate and commercial requirements.

During his stay with us he was part of a team of famous graphic designers, such as Karel Kruijssen and Armand Mevis, that contributed largely to a challenging design culture that made Dutch graphic design such an important part of now famous Dutch Design.

Yours Faithfully,

Jeroen Chabot  
Dean
